Chemical engineers: masters of cleaning and decontamination

Ian Wilson has been in the Department of Chemical Engineering and Biotechnology (CEB) at the University of Cambridge since 1994. He holds a personal chair as Professor of Soft Solids and Surfaces and leads the Paste, Soft Solids and Surfaces Group at CEB. His research activities include the rheology of soft solids; extrusion and thermal processing of soft-solid particulate pastes; heat exchanger fouling; cleaning and decontamination of process equipment, with applications in the food, oil, pharmaceutical and fine chemicals sectors. He holds degrees in chemical engineering from the University of Cambridge, UK, and the University of British Columbia, Canada. He has active research connections across the globe,

from Argentina and New Zealand to continental Europe and Japan. Ian is a Fellow of the Institution of Chemical Engineers, a Chartered Scientist and Chartered Engineer, and is the Editor-in-Chief (Food) of the IChemE/EFCE journal Food & Bioproducts Processing
